

## Maria Bogdan I Love Carousel, Ireland

I was in Ireland Cork city for 4 weeks (1 month). It was amazing, thank you Erasmus+ and my school Obchodní akademie Praha.

I worked in fashion shop I Love Carousel, it is dresses, t-shirts and skirts shop in the city center of Cork city.

I took knowledge at my work: working with the cash desk, working in a team, assisting customers, using the till, how to manage stock, understanding how the business works, and administrative tasks. I also improved written and spoken English, spoke a lot with me super-friendly Irish coworkers.

I lived with my classmate Sara and Polly – the girl from the first course. It was nice family, they are intelligent and well-mannered. They have two cute children. We lived in a Cobh. It was a nice city in a 30 minutes from Cork, but right near the sea and very picturous.

At free time in Ireland, we were in Dublin, Cliffs of Moher and Blarney castle with our teacher Diane.

Before my internship program I attended English courses at school. Internship program was wonderful and I like it, I am so happy that I was there. I met many interesting people there and know how people live in another interesting country. I made some new friends and improved my English. It was very useful for me, because I had to adopt to the conditions of another state what was really difficult for me first days. I also knew a lot of interesting things about Ireland, its history and traditions. I am happy that I tried this chance.
